Ravascletto is located in the very heart of the Carnia area, the most typical and traditional in the center of Friuli. This small hamlet is surrounded by both the Alps and the Dolomites, offering breathtaking panoramas. City tour: Palmanova

This little fortress was built by the Republic of Venice around XVI and XVII century and it was planned to be the "Star city", as you can clearly see on the map! Currently a National Monument and an UNESCO site, this little jewel is just perfect for a deep-in-the-history walk.

And don't forget the Palmanova Village, one of the biggest Outlet in Friuli, is just 1 mile away! http://www.palmanova.travel/index.php

Doberdó & Pietrarossa Lakes Natural Reserve Very close to the Slovenian border, half way between Gorizia and Trieste, there's a beautiful natural reserve. Its lakes are peculiar: water is not coming from rivers but from natural springs underground: they are a rare examples of Carsic lake, surrounded by a real vegetation oasis in the middle of the typical rocky, barren carsic landscape. https://www.turismofvg.it/parks-and-natural-
